1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Trust's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Trust's responsible entity are governed by the Trust's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Perpetual Investment Management Limited as the Investment Manager of the Trust. Equity Trustees has appointed a custodian to hold the assets of the Trust. The custodian has no supervisory role in relation to the operation of the Trust and is not responsible for protecting your interests.

The Investment Manager

Perpetual Investment Management Limited

Perpetual Investment Management Limited ("PIML") is a wholly owned subsidiary of Perpetual Limited (ABN 86 000 431 827) and part of the Perpetual Group. 'Perpetual Group' means Perpetual Limited and its subsidiaries.

Delegated Investment Manager

Barrow, Hanley, Mewhinney & Strauss, LLC

PIML has appointed Barrow, Hanley, Mewhinney & Strauss, LLC ("Barrow Hanley") as the specialist investment manager for the Trust. Barrow Hanley (Australian financial services authorised representative number 001283250) is a leading investment manager in global value investing. Founded in 1979 and based in Dallas, Texas (USA), Barrow Hanley offers value-focused investment strategies spanning global equities, fixed income and leveraged loans. Barrow Hanley enjoys a boutique culture with a singular focus to assist clients in meeting their investment objectives. Barrow Hanley is a subsidiary of Perpetual Limited and a related party of PIML.

2. How the Barrow Hanley Global Equity Trust works

The Trust is a registered managed investment scheme governed by the Constitution. The Trust comprises assets which are acquired in accordance with the Trust's investment strategy. Direct investors receive units in the Trust when they invest. In general, each unit represents an equal interest in the assets of the Trust subject to liabilities; however, it does not give investors an interest in any particular asset of the Trust.

If you invest in the Trust through an IDPS (as defined in the Reference Guide) you will not become an investor in the Trust. The operator or custodian of the IDPS will be the investor entered in the Trust's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Trust through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Trust is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Perpetual Investment Management Limited
GPO Box 804
Melbourne, VIC, 3001

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Trust's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.15%.

The Application Price will vary as the market value of assets in the Trust rises or falls.

Making additional investments

You can make additional investments into the Trust at any time by sending us your additional investment amount together with a completed Additional Investment Form. There is no minimum applicable for additional investments into the Trust.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is based on the number of units held by the investor at the end of the distribution period.

The Trust usually distributes income annually at 30 June. Distributions are calculated for the entire distribution period and are normally paid to investors as soon as practicable after the end of the distribution period.

Investors in the Trust can indicate a preference to have their distribution:

- reinvested back into the Trust; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Trust can generally withdraw their investment by completing a written request to withdraw from the Trust and mailing it to:

Perpetual Investment Management Limited
GPO Box 804
Melbourne, VIC, 3001

Or sending it by email to perpetual_transactions@unitregistry.com.au.

The minimum withdrawal amount is \$50. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 3 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD Australian domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request if it considers that it is in the best interest of investors to do so (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Trust, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.10%.

The Withdrawal Price will vary as the market value of assets in the Trust rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Trust falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Trust including due to one or more circumstances outside its control or where the Trust is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Trust is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Trust has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Trust will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Trust may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Barrow Hanley Global Equity Trust

The Trust is actively managed by a team at Barrow Hanley that has deep experience investing through multiple market cycles. Its consistent, repeatable process identifies companies across the globe and the market capitalisation spectrum to exploit inefficiencies resulting in a diversified portfolio.

The Barrow Hanley team believes that markets are inefficient, and that these inefficiencies can best be exploited through adherence to a valuation centric investment process dedicated to the selection of securities on a bottom-up basis. The team focuses primarily on fundamental securities analysis, valuation, and prospects for a return to fair valuation.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Trust. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity, Investment Manager, Delegated Investment Manager, Perpetual Limited or any member of the Perpetual Group do not guarantee the liquidity of the Trust's investments, repayment of capital or any rate of return or the Trust's investment performance. The value of the Trust's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Trust. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Trust is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Trust is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

The Trust offered in this PDS is not a deposit with or other liability of Perpetual Group.

Active management risk

Barrow Hanley does not invest in a predetermined basket of securities, such as a basket of securities that reflects an index, but instead selects securities that meet its investment criteria. This carries with it the risk that the Trust may underperform the market generally.

Company specific risk

The value of investments can vary because of changes to a company's management, internal operations, product distribution or the company's business environment. Returns are affected by the underlying strength of the cash flows, balance sheets and management of the companies in which the Trust invests. An investment in shares carries the risk of a decline in value or a decrease in, or failure of payment in, distributions because of a number of factors, including a fall in investor confidence, poor management or changes in a company's competitive environment or internal operations.

Concentration risk

The concentrated nature of the investments of the Trust will reduce the potential benefit of diversification for the Trust. The potential benefit of diversification is to reduce volatility of investments. As the Trust has a concentrated portfolio of investments, the Trust may experience higher volatility than a more diversified portfolio.

Counterparty risk

Counterparty risk is the risk that any of the Responsible Entity's or the Investment Manager's or Barrow Hanley' trading counterparties, custodians, or any issuer or guarantor of securities held by the Trust, becomes insolvent or cannot otherwise meet their obligations to settle or repay money.

Currency risk

Currency risk is the sensitivity of the portfolio value to movement in foreign exchange rates. Barrow Hanley quantifies the risk of each individual security but does not actively manage currencies in aggregate for the Trust. Therefore, there is a risk that the Trust may be adversely affected by currency movements.

Drawdown risk

The risk of a steep decline in value of an investment portfolio from a relative peak. Any time taken to recover a drawdown can vary considerably due to the nature of the underlying assets, the investment strategy, market conditions and the size of the drawdown.

Emerging markets risk

Emerging Markets are more likely to experience greater volatility than markets in developed countries. Securities traded in Emerging Markets also have more limited liquidity when compared to securities traded in developed countries. This means that those securities may fall more sharply and rapidly than securities traded in developed countries. Further risks include differences in auditing and financial accounting standards, less regulated markets, less developed corporate laws and political risk.

ESG risk

Inadequate consideration of issues related to environmental, social, governance (ESG) and ethical factors may mean that investment values are adversely impacted.

Interest rate risk

Changes in official interest rates can directly or indirectly impact (negatively or positively) on investment returns. For instance, rising interest rates can have a negative impact on the Trust's or a company's value as increased borrowing costs may cause earnings to decline. As a result, the share price may fall.

Legal risk

The Trust may be affected by the actions of governments and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations of which the public may not be aware. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the Trust from pursuing its strategy or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example nationalisation of any institution or restrictions on investment strategies in any given market sector (for example restrictions on short selling in the financial sector) or changing requirements (for example increased disclosure to market) and imposed without prior warning by any regulator. This risk is generally higher in developing countries.

Liquidity risk

There may be times when securities may not be readily sold (for example, in a falling market where companies may become less liquid). If this occurs and it results in the Trust becoming illiquid, withdrawals of units from the Trust must be processed only in accordance with the Corporations Act. Trading volumes of stocks are generally expected to be sufficient to satisfy liquidity requirements when necessary.

Neither the Responsible Entity nor the Investment Manager nor the Delegated Investment Manager guarantees the liquidity of the Trust's investments.

Market risk

The value of investments may fluctuate significantly over short periods of time. These fluctuations can be caused by changes in interest rates, economic cycles, investor sentiment, and political, social, technological and legal events. These changes can directly or indirectly create an environment that influences (negatively or positively) the value of the investments in the Trust. In addition, a downward move in the general level of the equities market can have a negative impact on the performance of the Trust.

Operational risk

Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the portfolio. This could be the result of oversight, ineffective security processing procedures, computer system problems or human error. The Responsible Entity, the Investment Manager and Barrow Hanley have instituted certain practices and processes within their respective operations and business administrations designed to wherever possible mitigate the operational risk consequences that arise.

Political risk

There may be high political risk in certain countries due to the fragile political environment of those countries. Political instability and/or political disturbances are more common in Emerging Markets than in developed nations. There may be higher economic risk from policy mistakes, as governments are less accountable than in developed nations. Examples of severe currency depreciation have also occurred in some nations.

Stock selection risk

Barrow Hanley may make poor investment decisions resulting in sub-standard returns (for example where Barrow Hanley invests in a company that significantly underperforms the share market). This risk is mitigated to some extent by the knowledge and experience of Barrow Hanley and the diversification of stocks held in the Trust.

Trust risk

As with all managed funds, there are risks particular to the Trust including: that the Trust could be terminated, the fees and expenses could change, that Equity Trustees is replaced as Responsible Entity or that the Investment Manager or Delegated Investment Manager is replaced. There is also risk that investing in the Trust may give different results than investing directly in the securities because of income or capital gains accrued in the Trust and the consequences of withdrawal by other investors.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Trust's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Investment style and approach

Barrow Hanley strives to achieve the Trust’s objectives by adopting a value-oriented, bottom-up investment process focused on in-depth fundamental research to identify companies that trade below their intrinsic value for reasons that they can identify, believe are temporary and have a clearly identified path to achieving fair value.

Barrow Hanley aims to select the most attractive securities to construct a well-diversified, active portfolio that seeks to provide asymmetrical returns by participating in up markets while aiming to protect in down markets. The portfolio will exhibit a clear value bias and seek characteristics such as:

- price/earnings ratios below the market
- price/book ratios below the market
- enterprise value/free cash flow ratios below the market
- dividend yields above the market

The Trust will primarily invest in companies incorporated in developed markets and may hold up to 20% of the portfolio in companies incorporated in Emerging Markets.

The Trust will not invest in companies that are directly involved in tobacco production where Barrow Hanley determines that tobacco production accounts for 10% or more of the company’s gross revenue.

The currency exposure in the Trust is unhedged.

Environmental, social, governance and ethical factors (ESG)

Equity Trustees has delegated investment functions including ESG considerations to the Investment Manager. The Investment Manager has appointed the Delegated Investment Manager, who may take into account ESG considerations in the selection, retention and realisation of fund assets. The Trust is not designed for investors who have specific ESG considerations or goals. The integration of ESG considerations into the investment process of the Trust described above does not imply that the Fund is marketed as an ESG product in Australia.

For Environmental, social, and governance and ethical factors (ESG) you should read the important information in the Reference Guide. The Reference Guide is available at www.eqt.com.au/insto or www.perpetual.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

Trust performance

Up to date information on the performance of the Trust will be available by:

- calling Perpetual Investment Management Limited Client Services on 1800 022 033 (Australia); or
- visiting the Perpetual website at www.perpetual.com.au.

¹ This is a guide only and not a recommendation. You should discuss your investment in the Trust with your financial adviser to ensure that it meets your needs.

² The Trust invests predominantly in shares listed on any recognised global exchange. The Trust may also invest in shares proposed to be listed within six months on any such recognised exchange, limited to 10% of the Trust’s Net Asset Value.

³ Cash may be held in Australian dollars (AUD) or foreign currencies.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor’s account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Until further notice, the management costs are capped, except for extraordinary expenses. If the total management costs exceed the cap, Perpetual Investment Management Limited will reimburse the amount of the excess costs to the Trust unless the excess is due to an extraordinary expense, such as a significant but properly recoverable legal expense, in which case the expense would be incurred by the Trust and reflected in the unit price of the Trust, and in that way borne by the investors in the Trust.

³GST is not applicable to any Buy/Sell spread when you buy or sell units in the Trust.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Trust, investing the assets of the Trust, expenses and reimbursements in relation to the Trust and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.99% p.a. of the NAV of the Trust is payable to the Responsible Entity of the Trust for managing the assets and overseeing the operations of the Trust. The management fees component is accrued daily and paid from the Trust monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Trust may include other ordinary expenses of operating the Trust, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Trust invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Trust as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on the relevant costs incurred during the financial year ended 30 June 2025.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Trust, the Trust may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Trust, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Trust invests (if any), that would have been transaction costs if they had been incurred by the Trust itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Trust are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Trust.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Trust will incur when buying or selling assets of the Trust. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Trust and are not separately charged to the investor. The Buy Spread is paid into the Trust as part of an application and the Sell Spread is left in the Trust as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.10% upon exit. The dollar value cost based on an application of \$25,000 is \$37.50 for each individual transaction. The dollar value cost based on a withdrawal of \$25,000 is \$25 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time without notice to investors and www.perpetual.com.au will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Trust's assets and are reflected in the Trust's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Trust are 0.08% p.a. of the NAV of the Trust, which is based on the relevant costs incurred during the financial year ended 30 June 2025.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Trust. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Trust and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Trust on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Investment Manager on 1800 022 033 (Australia) for further information.

Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs in the Trust can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Barrow Hanley Global Equity Trust		
BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.99% p.a.	And, for every \$50,000 you have in the Barrow Hanley Global Equity Trust you will be charged or have deducted from your investment \$495 each year
Plus Performance fees	Not applicable	And, you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.02% p.a.	And, you will be charged or have deducted from your investment \$10 in transaction costs
Equals Cost of Barrow Hanley Global Equity Trust		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$505* What it costs you will depend on the fees you negotiate.

We have assumed a constant value of \$50,000 for the whole year.

* Additional fees may apply.

A **buy spread** of 0.15%, equal to \$7.50 on a \$5,000 contribution, will also apply. And, if you leave the managed investment scheme, you will be charged a **sell spread** of 0.10%, equal to \$50 for every \$50,000 you withdraw.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or www.perpetual.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Trust) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Trust.

The Trust is an Australian resident for tax purposes and has made a choice to be an Attribution Managed Investment Trust. The Trust does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Trust which has been attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or www.perpetual.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the relevant Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Perpetual Investment Management Limited
GPO Box 804
Melbourne, VIC, 3001

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client who has invested directly in the Trust, you may have a right to a 'cooling off' period in relation to your investment in the Trust for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as an investor in the Trust during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Trust by the IDPS. The right to cool off in relation to the Trust is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of an investor in the Trust. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Trust on their behalf. The terms and conditions of the IDPS guide or similar type document will govern an Indirect Investor's investment in relation to the Trust and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
